AUXILIARY CODE

K-0

TT Designates the year. "K" indicates the year 2000. Years progress or regress in alphabetical order. "J" is 1999, "L" is 2001, "M" is 2002, and so on. The letters "I" and "O" were skipped.
TT Designates significant part changes within the same year for this model. Base is 5 (0 for codes L-0 and earlier) and this number advances for each change.

Example: P-6

TP "P" indicates 2004.
TP "6" indicates the first significant part change for 2004.

Note for Models Having Serial Number M5 B and Earlier

If your model falls into this time frame and you need to replace parts in the assembly, review the scenarios below and follow the appropriate solution.

- a. Unit's evaporator shroud has only two holes or has four holes but only the lower two holes are threaded.

Solution: Order HS-3541 that contains a motor (Shinko), brackets, blade, and all fasteners required for mounting to the shroud using the existing threaded holes.

- b. Unit's evaporator shroud has four threaded holes and a Jakel motor.

Solution: Order a new motor (Shinko), brackets, fan blade, and all fasteners listed in the parts list above. Attach the brackets to the upper two holes on the shroud.

The santoprene light socket was changed to a porcelain lampholder at M-7 for FH1-AAC and at M-5 for FH2-AAC-HD. This change is non-interchangeable. If the light socket is not operating on a unit with a santoprene light socket, Hoshizaki recommends replacement with HS-3554.

Note:

Parts 4, 5 and 5a are not included in HS-3554; they are shown for reference only.
